Experience

Application Support Engineer Rolls-Royce

09/2015 – 11/2018 Houston, Texas

- Primary App Support Engineer for version 11 software VisiumKMS (Operational Risk Management solution).
- Led and assisted over 100 installs/upgrades for clients, on hosted and deployed servers, utilizing Microsoft IIS, SQL Server & Oracle 11g/12c.
- Resolved over 1000 incidents reported by users of the software, by troubleshooting, reporting bugs to development, and providing workarounds.
- Client users of the web app included oil & gas companies such as Shell, BP, Chevron, Phillips 66, and more.

Projects

NewSkill API, Back-end Project

8/2019

- To give people the opportunity to gain a new skill, in an in-person, immersive environment.
- People will be able to browse a collection of nearby courses, ranging from cooking classes, guitar lessons, painting, coding and more!
- On our secure site, users will be able to log in book and pay for a course, and also view courses they've already taken.

Built with: Node.js, Express, MongoDB, Stripe payment processing

Live Site: <https://newskillapp.herokuapp.com/>

Github: https://github.com/Umreen24/skill_lessons

The Useless Calculator Fun, Backend Project

8/2019

- A fun twist on the typical calculator app.
- Tired of boring calculator apps? Try this calculator with multiple personalities and attitudes.

Built with: Node.js, Express, PostgreSQL

Live Site: <https://radiant-inlet-47339.herokuapp.com/>

Github: https://github.com/Umreen24/skill_lessons

Purple API, Front-end Project

07/2019

- Purple helps people discover if the place/address they would like to move to has a good walkability index of the nearby type of places they find most important.

Built with: Javascript, Google Firebase, Google's Nearby Places API.
