Microsoft SQL Server 2012-2014, Oracle 11g/12, PostgreSQL, MongoDB

Experience

Application Support Engineer   Rolls-Royce

09/2015 - 11/2018   Houston, Texas

• Primary App Support Engineer for version 11 software VisiumKMS (Operational Risk Management solution).

• Led and assisted over 100 installs/upgrades for clients, on hosted and deployed servers, utilizing Microsoft IIS, SQL Server & Oracle 11g/12c.

• Resolved over 1000 incidents reported by users of the software, by troubleshooting the database and app server, reporting bugs to development in TFS, and providing workarounds.

• Client users of the web app included oil & gas companies such as Shell, BP, Chevron, Phillips 66, and more.

Projects

NewSkill   API, Back-end Project

8/2019

• NewSkill gives people the opportunity to gain new skills ranging from cooking classes, guitar lessons, painting, coding and more, in a nearby, immersive environment.

• Implemented user and admin CRUD operations to register for, create, update and delete courses and users in the database.

• Developed a custom API for the courses https://newskillsite.herokuapp.com/api/v1/courses

• Designed a beautiful UI for the a great customer experience.

Built with: Node.js, Express, MongoDB, Stripe API
Live Site: https://newskillsite.herokuapp.com/
Github: https://github.com/Umreen24/NewSkill

The Useless Calculator   Fun, Backend Project

8/2019

• A fun twist on the typical calculator app.

• Tired of boring calculator apps? Try this calculator with multiple personalities and attitudes.

Built with: Node.js, Express, PostgreSQL
Live Site: https://radiant-inlet-47339.herokuapp.com/
Github: https://github.com/Umreen24/skill_lessons

Purlple   API, Front-end Project

07/2019

• Purple helps people discover if the place/address they would like to move to has a good walkability index of the nearby type of places they find most important.

Built with: Javascript, Google Firebase, Google's Nearby Places API.
Live Site: purplemapapp.surge.sh
Github: github.com/ersnover/purple-map-app
